Inner Mongolia Dongyuan Scien-Tech to Start up BDO Unit in March, 2015

2015-03-24

PUdaily, Shanghai- Inner Mongolia Dongyuan Scien-Tech's 100 kt/year BDO facility is under the final debugging. "This facility is expected to start commercial production in mid-to-late March, 2015," a relevant person said. The company delayed the start-up of its 100 kt/year BDO facility to 2015 because of an unfortunate accident in October, 2014. Inner Mongolia Dongyuan Scien-Tech Co., Ltd. was founded in December, 2008, it is the only company which introduces the advanced technology (Repe process) from INVISTA in the Inner Mongolia Autonomous Region. In the first phase, Dongyuan Scien-Tech invests RMB 6.1 billion into the project, constructing the BDO devices with capacity of 100 kt/year and calcium carbide equipment with capacity of 720 kt/year. This project locates in the Inner Mongolia Wuda Industrial Park...[More](#)
