Wanhua-BorsodChem to Set up New MDI Bulk Storage Facility in Rotterdam

2017-06-20

In response to growing demand for MDI in the European market, and to improve its services and its flexibility, Wanhua & BorsodChem announce setting up a new MDI bulk storage facility in the Rotterdam area. Two new tanks will be located at LBC Tank Terminals, one of the largest chemical storage service providers in the world. This bulk storage facility is ideally located to serve as Wanhua & BorsodChem's regional European distribution hub of Wannate MDI products imported from China for European customers. The new MDI tanks will be commissioned in July 2017 and will help to ensure ongoing stable supply of MDI to the region. Wanhua Group is the largest MDI producer in the world, with cost-effective production facilities and more than 2,000 ktpa MDI capacity, while its European production base, BorsodChem is the leading producer of MDI, TDI and other speciality chemicals in Central and Eastern Europe...[More](#)

Chongqing Huafeng Would Be Built into the Largest AA Production Base

2017-06-19

PUdaily, Shanghai-It is expected that the-third-phase 180 kt/year adipic acid (AA) project of Chongqing Huafeng is to finish in Huafeng Chongqing Base in the end of 2017. Then, the base with a capacity of 540kt/year would be the largest production base of adipic acid. The latest project has improved both technology and design on the basis of the former ones...[More](#)

Wood Coatings Introduction

2017-06-16

PUdaily, Shanghai- Thanks to the boosting high-end wood furniture market, HDI enjoyed an ever-growing trend over the course of last few years. Notwithstanding the highly segmented market, its contribution to HDI sector cannot be disregarded. For the being, sluggish economic growth at both home and abroad lowers the rise of wood coatings. And yet, the sector is believed to be motivated by mounting export along with the recovery of the economy worldwide...[More](#)

China to Levy Anti-dumping Duty on Korean Styrene Imports

2017-06-15

PUdaily, Shanghai- According to market resources, the Chinese government put forward a proposal for levying anti-dumping duty on Korean Styrene Imports. The proposal is placed in that Chinese producers submitted application to lower the competitiveness of Korean sources. And yet market players believe that it will be long before the implementation...[More](#)

Polyether Polyols Downstream Market Different Development led by National Policy

2017-06-15

PUdaily, Shanghai- With the development of living condition and consumptive level of people and the coming of 'New Normal' of China's economy, people's lives are changes in every aspect. China has invested 4 billion funds for high-speed rail two years ago. "Made in China 2025" plan was proposed last year and the Belt and Road Initiative policy is hot in this year. Those international cooperation development strategies have an extent effect on the chemical industry, including the downstream market of polyether polyols...[More](#)
