How will the China TDI Price Trend Go in December

2017-12-11

PUdaily, Shanghai-- 1. Analysis of TDI market trend The domestic TDI market began to rally on November 23, with a price increase of 2,000 to 36,000 RMB/ton within a week. However, on Dec. 1 the market began to show a trend of slow drop, which is strengthened last week. Today, PUdaily will give an analysis to help you understand why the market experienced a sudden rise and then is followed by a slow fall just a week later. As this year is coming to an end, what will the market outlook will be?As can be seen from the graph, the TDI price was on a downward trajectory from the end of October to the end of November. During this period, traders made efforts to sell off goods, the manufacturers use delayed settlement pricing strategy to beat down the market, and most of the downstream customers reduced their purchase...[More](#)
