Summary of CASE Polyols Output and Sales Over the Past Decade

2017-12-14

PUdaily, Shanghai-- CASE polyols are mainly used in waterproof coatings, adhesives, sealants, elastomers and prepolymers, tennis courts, etc. What is the growth trend of production and consumption of CASE polyols for the past decade? This article will give you an answer. In the past ten years, the output of CASE polyols has increased from about 60,000 tons in 2005 to about 320,000 tons in 2016, an average annual output of about 150,000 tons. With an annual average growth rate of around 16% for the past decade, the output will continue to increase in the coming years. Before 2008, no CASE polyol is exported or imported. Then in 2009, the imports and exports of CASE polyols began. But both annual imports and exports were below 30,000 tons, having little impact on domestic consumption...[More](#)

South Korea Polyether Polyols Market Holds Steadily This Week

2017-12-14

PUdaily, Shanghai- South Korea polyether polyols market holds steadily this week. Local polyols supply remains tense due to the upstream propylene oxide's shortage. Downstream demand maintains sluggish in the off season. Mainstream price of slab polyols is reported at USD ...[More](#)

PU Coatings Systems Industry are Shifting to Mass Production

2017-12-18

PUdaily, Shanghai-- Production capacity for global and China's PU coatings systems in 2017 There is a relatively great capacity for PU coatings systems in China. But compared with their foreign counterparts, few manufacturers have unique technologies. Most companies produce low-end products that have relatively low technical level. In China, one of the main sectors consuming adipic acid is PU coatings systems...[More](#)

BorsodChem Announces Capacity Expansion of Its T65 and T100 Grades of Toluene Di-

2017-12-14

Responding to the growth in global demand for T65 and T100 toluene di-isocyanates (TDI) grades, BorsodChem will double the capacity of its TDI crystallization unit at its Kazincbarcika plant in Hungary. This capacity expansion will allow BorsodChem to meet the strong demand growth and continue to provide stable supply in the coming years...[More](#)

BASF Opens Its First Automotive Coatings Production Plant in Thailand

2017-12-14

BASF's Coatings division today inaugurated a new automotive coatings plant at its Bangpoo manufacturing site, Samutprakarn province, Thailand. The new plant is the first BASF automotive coatings manufacturing facility in ASEAN, and will produce solventborne and waterborne automotive coatings to meet growing market demand in the region...[More](#)
