### Summary of Market for Feedstocks of Polyether Polyols in 2017

2017-12-29

PUdaily, Shanghai-- In 2017, prices of some raw materials of polyether-polyols products remain relatively stable, without showing drastic volatility. Examples are sucrose, ethylene oxide, diethylene glycol, etc. Whereas other feedstocks experience marked change in price. Next, PUdaily will present how the price of each feedstock has changed over the past 12 months. The prices of different raw materials are shown as follows (unit: RMB/ton). In 2017, the change in price of east China-originated acrylonitrile is mainly determined by the supply and demand. The price saw an obvious upward trend between the beginning of July and the end of October, which can be mainly attributed to the sudden shutdown of Shandong Qilu Petrochemical Engineering's facilities and the hurricane in the United States in the third quarter...[More](#)
