An Overview of Global New MDI Capacities in the Coming Years

2019-02-26

PUdaily, Shanghai-- Global MDI producers' new and expansion projects for the coming years are mainly located in Asia, North America and Europe. By 2024, the world will have had a MDI capacity of 11.6 million tons/year. Wanhua Chemical: Its 400k t/a MDI unit will be built in Convent, St. James Parish, Louisiana. With an investment of \$1.25 billion, the project will see its construction begin in 2019 and is expected to come onstream in 2021. It is estimated that 1,000 jobs will be created during the construction. After the project is completed, 1,230 direct and indirect jobs will be created. In addition, Wanhua plans to expand the capacity of its MDI plant in Yantai from 600,000 tons/year to 1.1 million tons/year in 2019 and its plant in Ningbo from 1.2 million tons/year to 1.5 million tons/year in 2020...[More](#)

BASF Posts Slight Increase in 2018 Sales and Decline in Earnings due Mainly to Lower

2019-02-27

BASF generated sales of €62.7 billion last year. This represents an increase of 2% compared with the previous year. Income from operations (EBIT) before special items declined to €6.4 billion, compared with €7.6 billion in the previous year. This was mainly attributable to the Chemicals segment, which accounted for around two-thirds of the total decline in earnings. Isocyanate margins fell sharply...[More](#)
